

SETTING UP A WEBCAM SYSTEM
For participating in the video conferencing

Try to follow these steps, but we should also schedule a time to troubleshoot this together.

1A. If you have a Mac, install iChat AV:

<http://www.apple.com/ichat/download/>

1B. If you have a PC, install AOL Instant Messenger:

http://www.aim.com/get_aim/win/latest_win.adp?aolp=

2. Create a user account with AOL or mac.com with password

3. hook up camera: either webcam or, preferably, a miniDV camera
Make sure to Check "My Computer" to see if the camera has been recognized.

4A. Create a "Buddy" account for us in AOL Instant Messenger:

a. Under "My AIM" choose "Setup Buddy List" a Setup window will pop up.

b. Click "Add Buddy" button at bottom and enter "Connecttv1"
or "connectvorg" or "ConnectTV"

OR

4B. a. Create a "Buddy" account in iChat by pushing the "+" button
in the bottom left corner of the "Buddy List"
or choose "Add Buddy" from the "Buddies" pull down menu.

b. A new window will pop up, click the "New Person" button.

c. Choose the "Account type" either mac.com or AIM.

Fill in the other fields. Our account is ConnectTV@mac.com

5. To connect: right click or double click on our buddy name and choose "video option."
